## Purge Gas System 2 Suitable for pipes 43 till 410 mm. i.d.

### Pipe purging cylinders:

The advantage of the pipe purging cylinders is that filling of whole lengths of pipes with backinggas, is not necessary anymore.

The double plates of the pipe purging cylinders have a temperature resistance of 330° C.

The pipe purging cylinders are also suitable for welding of welding bends.

The system 2 will be delivered with all components for making several systems as shown on the photo's and further supplied with:

- Gas-connection.
- 10 meter pulling cable.
- 10 meter gas hose.
- Ø 43 till 218 mm supplied with 2x4 lipped discs.
- Ø 215 till 410 mm supplied with 4x 2 lipped discs.
